Drainage System Utility - Public Comment Form

The Drainage System Utility is the formation of a dedicated funding mechanism to ensure permit compliance and provide maintenance and improvements to the City's stormwater control system. The stormwater drainage system is the City maintained system of ditches, channels, swales, creeks, rivers, culverts, ponds, basins, treatment systems, wetlands, gutters, inlets, storm pipes, outfalls, and any other appurtenances necessary, useful or convenient for the orderly collection, conveyance, treatment, and disposal of municipal stormwater runoff.

If you have any questions, comments, or concerns regarding the proposed utility, the City would like to hear from you!

Name:	**Date:**
Address:	**Email:** **Phone:**

The City's Public Works Department includes all public comment received in a log for tracking purposes and to ensure that every comment is reviewed and addressed by staff. The Public Works Department may want to contact you for follow up on your submitted comment(s) to obtain more information and/or update you on the status of your input. Your contact information will not be shared for any purpose other than those described above.

Comments: (ATTACH ANY OTHER PERTINENT INFORMATION)

Would you like City staff to follow up with you?

_____ **Yes** _____ **No**

If you marked "Yes", how would you like to be contacted?
